

## ZINCALUME<sup>®</sup> STEEL AZ50 WARRANTY

Steelscape, Inc. warrants to Alpine (Buyer), that Steelscape's hot dip ZINCALUME<sup>®</sup> aluminum-zinc alloy coated steel sheet, sold for use as unpainted or prepainted roofing and siding panels or for use in rainwater applications, if erected within Continental North America or in another location **pre-approved** by Steelscape, will not rupture, fail structurally or perforate within a period of twenty-five (25) years and six (6) months after shipment from Steelscape due to exposure to normal atmospheric corrosion.

This warranty applies to all categories of product with a metallic coating class of AZ50 or heavier as designated by ASTM specification A792/A792M-97a.

This warranty only applies to a painted ZINCALUME Steel product when a Steelscape approved paint system has been utilized.

This warranty **does not apply** to ZINCALUME Steel sheets exposed at any time to corrosive or aggressive atmospheric conditions, including but not limited to the following:

- Areas subject to saltwater marine atmospheres or to constant spraying of either salt or fresh water.
- Areas subject to fallout or exposure to corrosive fumes, ash, cement dust or animal waste.
- Areas subject to water run-off from lead or copper flashings or areas in metallic contact with lead or copper.
- Conditions or circumstances where corrosive fumes or condensates are generated or released inside the building.
- Areas sheltered from periodic washing by natural rainfall or man-made fresh water rinse.

This warranty **does not apply** in the event of the following:

- Bends less than 2T for a sheet thickness of 0.0299" and thinner and bends less than 4T for a sheet thickness of 0.0300" and thicker.
- Slopes of the roof, or any sections of the roof flatter than 1/4": 12."
- Mechanical, chemical or other damage sustained during shipment, storage, forming, and fabrication or during and after installation.
- Damage caused to the metallic coating or sheet by severe reverse bending, alternate compression and tension, improper roll forming, scouring or cleaning.
- Failure to remove debris from or provide for free drainage of water, including internal condensation from overlaps and all other surfaces of the sheets or panels.
- Deterioration of the panels caused by contact with green and/or wet lumber or wet storage stain caused by water damage and/or condensation.
- Presence of damp insulation and/or other corrosive materials in contact with or in close proximity to the panel.

This warranty **does not apply** in the event of deterioration to panels caused directly or indirectly by panel contact with fasteners and sealants. Responsibility for selection of suitable long-lasting fasteners and sealants to be used with ZINCALUME Steel roofing and siding panels, or in rainwater applications rests solely with the Buyer. Steelscape will have information available to the Buyer to aid in selection of suitable products. However, the information will not constitute a warranty of performance under any conditions.
